SchoolQ Staff Guide

Signing in

Everyone uses SchoolQ with their own user name and password. Your administrator gives them to you.

Steps

1. Open the SchoolQ app on your computer.

2. Type your **User name** and your **Password**.
3. Click **Sign in**. The Home screen opens.
4. If this is your first sign-in with the starting password, a **Choose a new password** screen opens. Type a new password of 8 or more characters. You cannot skip this step.
5. When you finish work, click **Logout** at the top right.

Good to know

- A department user opens straight to the **Queue Dashboard** for that department.
- You only see the screens your administrator gave you.
- If you forget your password, ask your administrator.
