SchoolQ Staff Guide

Reception: make a ticket

Use Reception when a parent comes to the desk and you make the ticket for them.

Steps

1. Open **Reception** from Home.

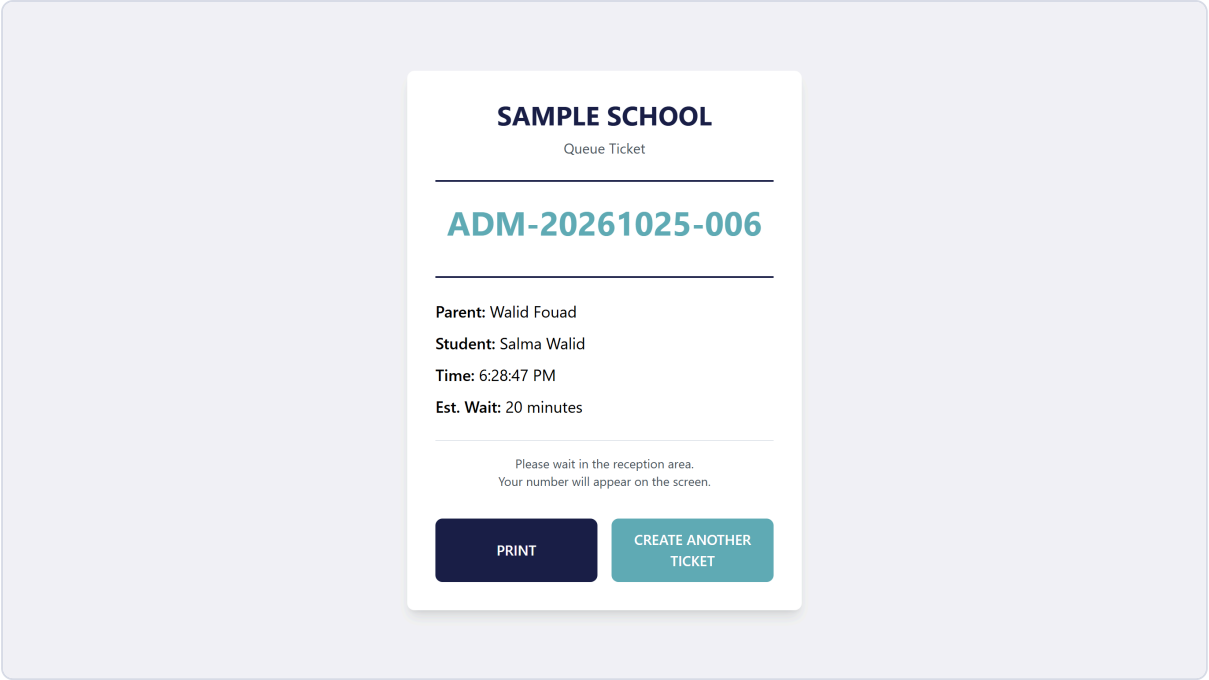

2. Choose the **Department** and the **Service Type**.

3. Read the **Estimated wait** and the **Queue position** on the screen.

4. Type the **Parent Name** and the **Student Name**. Both are required. **Student ID**, **Phone Number** and **Purpose of Visit** are optional.

5. Choose the **Priority**: **Regular** (the default), **Urgent**, **Elderly** or **Vip**.

6 Click **CREATE & PRINT TICKET**. The ticket opens. Click **PRINT** and give it to the parent. Click **CREATE ANOTHER TICKET** for the next parent.

Good to know

- The ticket number ends in **U** (urgent), **P** (elderly) or **V** (VIP). A normal ticket has no letter.
- Order of calling: urgent, then elderly, then VIP, then normal. Inside each group the oldest ticket is first.
