SchoolQ Staff Guide

Announcements

Announcements are messages that scroll on the TV Display. You can also read them aloud on the TV Display at any time.

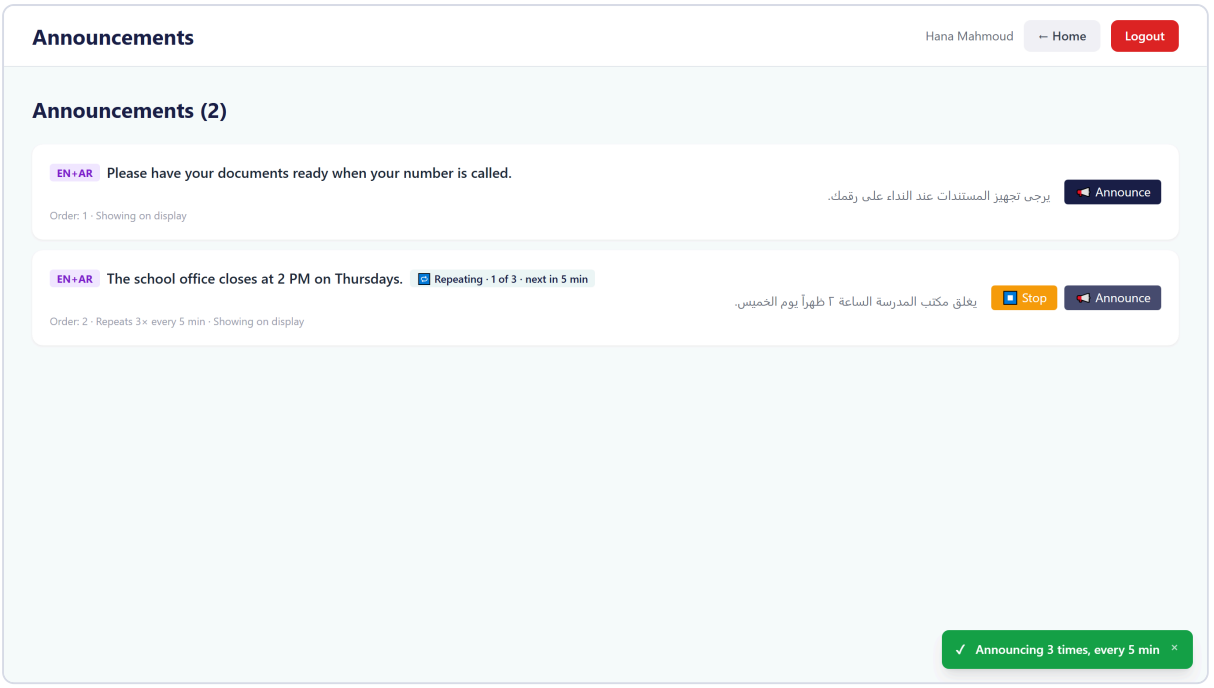

Steps

1. Open **Announcements**. You see the list of messages.

2. Find the message you need. Click **Announce** to say it now on the TV Display.

3 Some messages repeat. The line under the message shows this, for example **Repeats 3× every 5 min**. After you click **Announce**, the message plays again by itself.

4 While a message repeats, its row shows **Repeating** with the count and the time of the next one. Click **Stop** to end the repeats.

5 A ticket call is never cut. The announcement waits for the call, or plays again after it.

Good to know

- Only an administrator can add, change or delete messages, and set how often they repeat.
- Messages marked **Showing on display** also scroll on the TV.
