SchoolQ Staff Guide

Queue Dashboard: serve parents

Staff who work in one department use this screen all day to call and serve parents.

Steps

1. Open **Queue Dashboard**. At the top you see **Waiting**, **Serving Now** and **Served Today**.

2. Click **CALL NEXT PARENT**. The next ticket is called on the display screen.
3. The green box shows the parent, student, service and purpose.
4. Write notes in **Service Notes** if needed.
5. When you finish, click **COMPLETE**. The notes are saved.
6. Use **RECALL** to call the same ticket again if the parent did not come.
7. Use **SKIP**, **TRANSFER**, **NO-SHOW** or **CANCEL / LEFT** when needed. **TRANSFER** and **CANCEL / LEFT** ask for a reason. See the Queue Control sheet.

Good to know

- You can only call the next parent after you complete or close the current one.
- The table **Waiting Queue** shows everyone who waits, in calling order.
- **Cancel** in the table removes a waiting ticket.
